## Profile

A writer with a background in copy and tech, looking for a position that requires both diligence and creativity.

## Experience

### **Freelance Copywriter, Various Contracts; 2006-Present**

Provided ad copy and relevant content to a number of online advertisers and resources. Worked under tight deadlines and precise specifications. Conducted original research and presented the produce to a general audience.

### **Blogger, Various Sites; 2004-Present**

Have written content on myriad subjects for a variety of community and single-author blogs. Topics of interest have included: books, music, technology, and philosophy. Served as editor and technical administrator for a number of these sites as well.

### **Technical Writer, gForce Technologies; Ann Arbor, MI 01/08 - 09/08**

Created, edited, and maintained end-user documentation for a handful of industry-level software products. Worked closely with both the technical and sales sides of the company to make documentation as precise and accessible as possible.

### **Quality Consultant, gForce Technologies; Ann Arbor, MI 06/06 - 10/06**

Provided Quality Control service for a large-scale software module developed for the mass transit industry. Maintained a database of site-specific features and integrated this database with the developed product. Also created and maintained end-user documentation.

## Education

Green Mountain College, Poultney, VT; BA Philosophy, 2006

2006 Philosophy Department Senior Award, 2006 Robert T. Marsh Memorial Prize for Best Student Writing, President of the Philosophy Club

## Skills

Apart from writing skills, I also have a sustained interest in computer technology. I am proficient in HTML, PHP, JavaScript, and the Wordpress publishing platform. I am also familiar with the C/C++ programming language, Perl scripting, and the Adobe Creative Suite of applications. I have ample experience with customer service/personal interaction, acquired mostly through working in bookstores. Bookstores also taught me how to alphabetize very efficiently.
